

Introduction to Aquarius

End conference 2011
Irene Wiborg

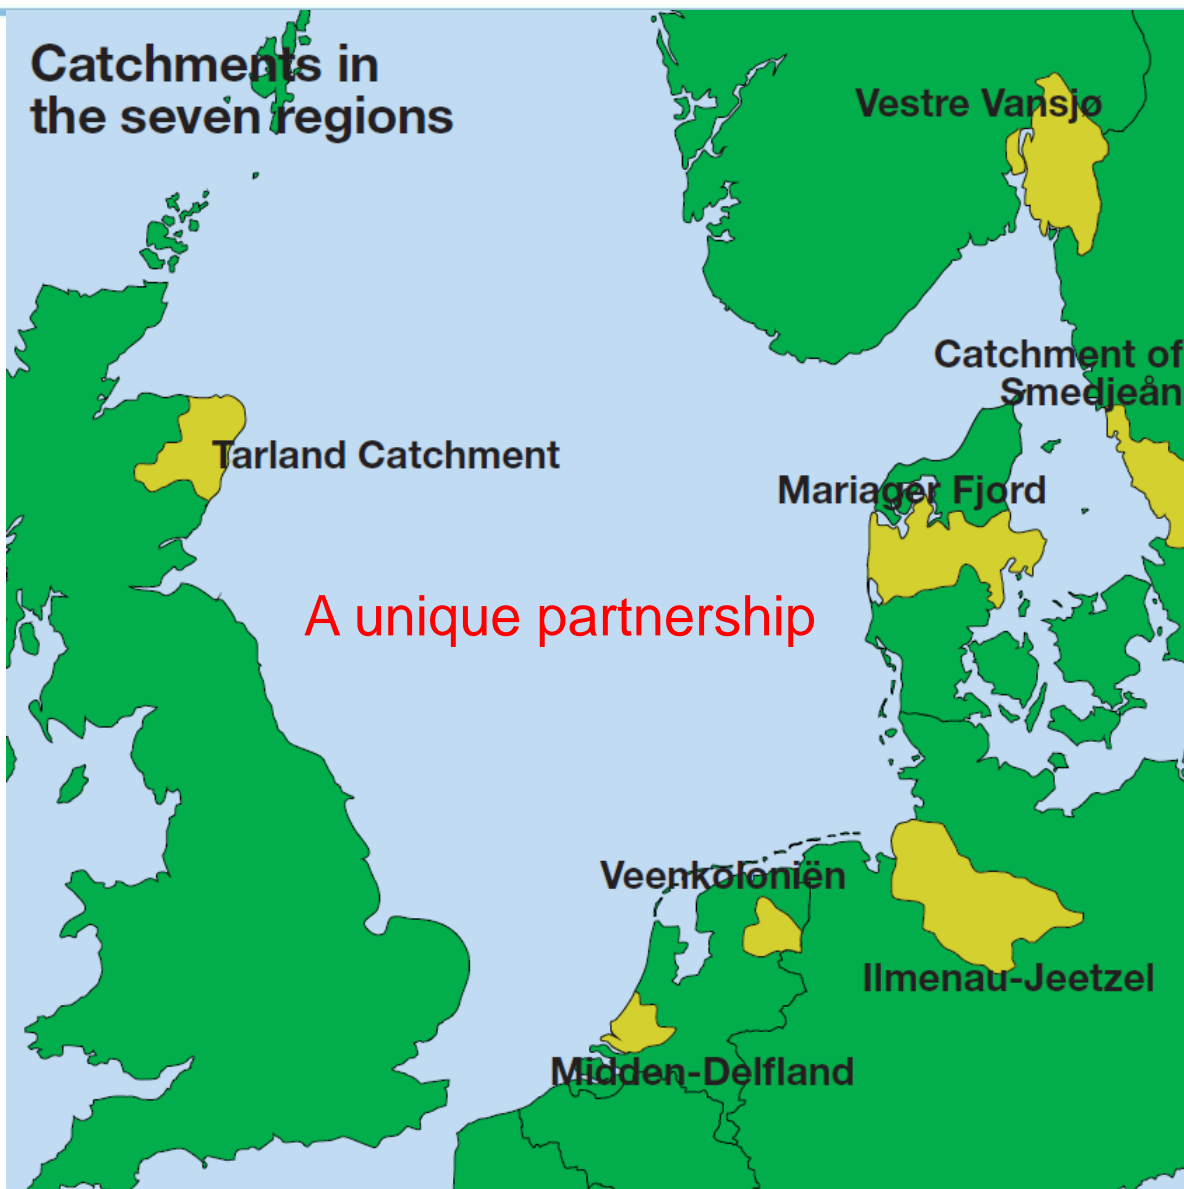

Agenda

1. Who is involved
2. It's about farmers and the water environment in a changing climate
3. Case studies in pilots on water quality, drought and flooding
4. You will be involved

Catchments in the seven regions

A unique partnership

Changed climate:

- more uncertainties
- more extreme events

How does the farmer become a Water manager?

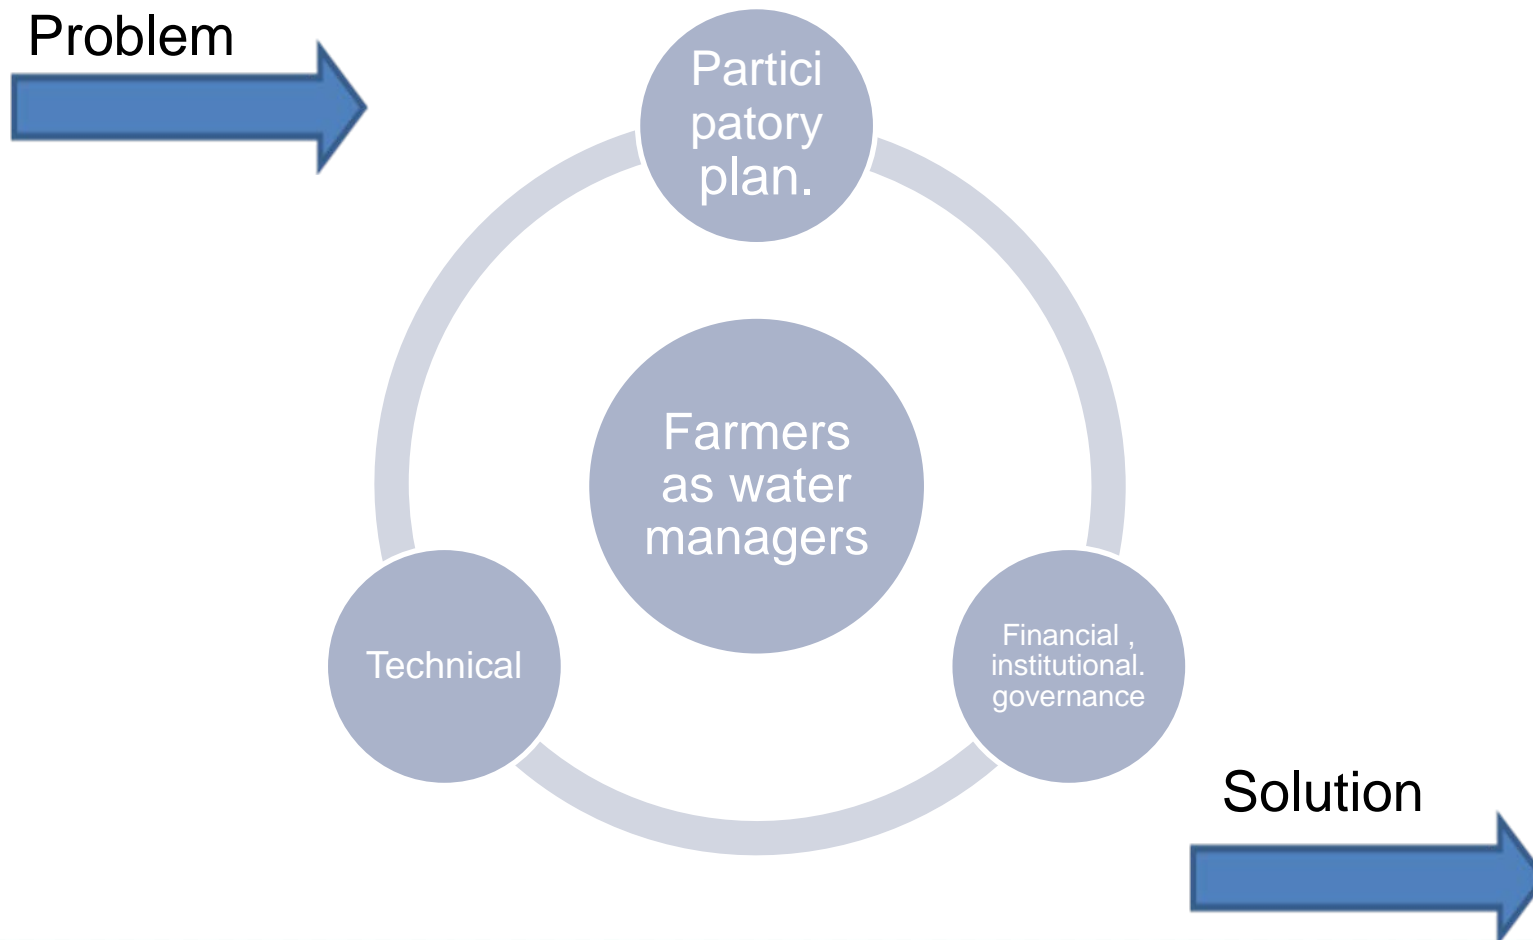

How to create win-win?

Flooding

How to find the win-win solutions?

The different water issues

| Pilot | Quality | Droughth | Flooding |
|----------------------|---------|----------|----------|
| River Smedjeåen, S | x | x | x |
| Delfland, NL | x | | x |
| Mariager, DK | x | | |
| Lake Vansjø, N | x | | |
| Lüneburg Heath, D | | x | |
| Drenthe, NL | | x | |
| Royal Deeside, Scot. | | | x |

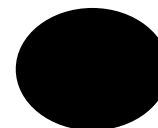

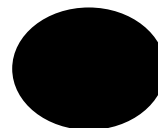

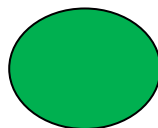

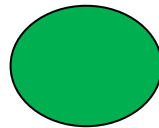

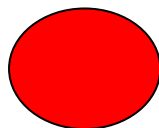

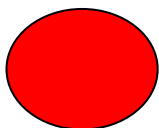

Changed climate

Introduction to Aquarius

Water
Quality

Flooding

Drough

Panel discussion on recommendations
