

Thank you for an excellent project!

In this last newsletter I would like to thank you once again for your pleasant cooperation, your dedication, hard work and joint efforts for the SUSCOD project. The results of the case studies, and also the [adoption of the ICZM Assistant in OURCOAST](#) by DG Environment are achievements we can all be very proud of. The SUSCOD project is also a [news item on the website of the North Sea Region Programme](#).

The last PMG will take place on 12 December in Amsterdam.

I hope to see you there!

Kindest regards, Lilian Bernhardi

The final stretch

We can look back on a successful SUSCOD end conference. The SUSCOD project is almost finished. Please note that there is still some work to be done to meet Interreg demands.

- **Workshops ICZM Assistant:** Please share and disseminate your knowledge on ICZM amongst your colleagues or other interested people in the workshops you should give according to Interreg demands. Every partner has to organize a workshop. Please have the participants sign an attendance list, and send it to the Province of Noord-Holland.
- **Uploading case studies in Assistant:** Please make sure your case studies, consisting of texts, a few photos and links to documents are uploaded in the Assistant.
- **Press releases:** Please send all press releases, (published) articles etc. issued to the lead partner. We have to list all press releases to Interreg to meet their requirements.
- **Indicators:** Please fill out your indicators. Please note that these will be discussed during the last PMG on December 12 in Amsterdam. You will receive an overview which describes which information is missing per partner.

Work Package reports

All work package reports are sent to the designer. The partners responsible within each Work Package will soon receive the draft report. After their approval they will be asked to upload the report in the ICZM Assistant. After having done this, please send the link to [Bianca](#) so she can add the documents to the end conference tab in the Assistant.

December 23th, Kim will put the final reports in the NSR website as well.

8th Activity Report

Thank you for your input to the 8th activity report. We will submit it later than planned, because NSR asked specifications from the SUSCOD partners for every separate sub partner.

'Practice makes perfect?' is now online

Whether you were unable to attend the end conference or you just want to 'relive' it again; we would like to invite you to check out the [summary of the presentations](#) here in the ICZM Assistant and the [power point presentations here](#) in slideshare. The [end film shown by Joanna Geldhof can be watched here](#).

End of the SUSCOD project, new start for ICZMassistant.eu

During the end conference the Assistant was handed over to OURCOAST. Astrid Schomaker from DG Environment accepted the ICZM Assistant from Joanna Geldhof and she promised to take good care of it. The Assistant can already be found on the [OURCOAST website](#).

Coast Magazine

We proudly present the online version of [COAST Magazine](#). A good read for everyone interested in Integrated Coastal Zone Management in relation to SUSCOD. The pilot projects, work packages, ten golden tips and the ICZM Assistant are presented in combination with a lot of pictures from the partner areas. Enjoy!

Finally

After the SUSCOD end conference we received an email from the JTS with *“Once again, congratulations to a job well done! we want to emphasize that we have taken on board the good news about the ICZM Assistant, and its adoption into the framework of the OURCOAST platform.”* That is why they asked us to submit a news item into the North Sea Region's project section. [So that is what we did, click here!](#)
