

Town Pier Pontoon

A pontoon is to be built off Town Pier to reinstate the pier's original function of allowing the arrival at and departure from Gravesend by river. The pontoon will be accessed via the pier and will accommodate a range of vessels from visiting yachts to the Waverley paddle steamer.

The steel pontoon will be completed Spring 2012 and is funded by Gravesham Borough Council, Kent County Council, South East England Development Agency and the European Union's Interreg IVB North Sea Programme

Also, mooring bollards have been installed at St Andrew's Gardens where vessels such as Thames Barges will be able to tie up, providing increased activity on the river and interest for the town's residents and visitors.

For further information please contact the council's Regeneration Section on **01474 337406** or email: regeneration@gravesham.gov.uk
