the free e-inclusion encyclopedia that anyone can edit.
We now have **13** pages

About WikiAge

Developed by the University of Abertay Dundee as part of the iAge Project, funded by the Interreg North Sea Region, WikiAge has been created to provide a collaboratively written information resource for both publishing the results of the iAge Project and allowing anyone interested in e-inclusion access to a wide range of information.

Latest news from the iAge-Project

- **Informal care in the Province of Groningen – survey results**

  iAge partner CMO Groningen did a survey in the province Groningen regarding informal care and voluntary work. In the Netherlands many people are informal carers. Informal care is the care provided to loved ones with health problems, a disease, or limitation. There is always a personal relationship between the care provider and the care receiver:

- **Video and translated website on informal care support in the Netherlands**

  At the partnermeeting in Groningen, ZIF and CMO Groningen mentioned a Dutch website for informal-care support. Since there is no English version, the easiest way of getting familiar with this website is by visiting it and have your browser translate it. The following link is for the English translation: http://translate.google.nl/translate?hl=nl&sl=nl&tl=en&u=http%3A%2F%2Fwww.wehelpen.nl During the presentation a video
