Welcome

The South Yorkshire Forest lies at the heart of the economic and social life of South Yorkshire. New woodlands, accessible open spaces and outdoor recreation improve quality of life and provide an attractive backdrop for investment.

Reasons why?

- market failure
- credit freeze
- inflexible planning policies
- shrinking populations
- land-banking - speculative

Forgotten, stalled, abandoned, paused by design

Green Growth: New Shoots is an exciting conference taking place in the heart of Sheffield's attractive city centre on 9 - 10 May.

Our cities and city regions are facing an urgent challenge to create jobs and

We could contend that these assets are amongst our most valuable advantages. With the right leadership and stewardship this could become a distinct competitive advantage for future growth!

By providing a forum for debate and

A photograph of a protest. A large white banner with handwritten text in black and colorful marker is suspended across the front of a multi-story stone building. Three individuals are perched on the roofline of the building, holding the banner. The building features stone masonry and a window with a dark frame is visible on the right. The sky is clear and blue.

EEA (2006) Urban sprawl in Europe, the ignored challenge

Our partners' policies

- TAB – Tijdelijk Anders Bestemmen
- - building, city life, recreation, culture, energy, water, greening and connections
- Changing 'Temporary' from 5yrs to 10yrs
- 2009 Flemish tax incentives encouraging re-use of previously developed land
- 'Decreet Betreffende Grond- en Pandenbeleid'

Unique role and value of EU

- Helping provide a level playing field
- Helping each other out when it gets tough
- Raising the bar together, not reducing it
