## Practice:

**On-the-ground progress:** What has happened on site, if anything? How are you going to incorporate the landscape of your site? **Include pictures!**

**Pilot development:** How was the pilot designed, what physical problems must you overcome eg contamination?

**Future plans:** Is there a strategy for your pilot's care, or for its handover back to the developer, or for an alternative site for the temporary re-use at handover?

## **How have you involved your SEEDS partners?**

Two additional site-visits by University of Copenhagen and Givrum to Hamburg – visiting the SEEDS-pilots and other sites still empty or with a temporary use at the moment

## **What support, help or information do you need from your SEEDS partners?**

Empty Shops: experiences of RGA

## Lessons Learnt:

- Hamburg is still a booming city with only a few empty spaces.
- Housing companies are looking for sites to construct new houses with flats
- Empty shops and offices are torn down for developing new sites

## Evaluation:

Indicators for success of the pilot: interest by the cities!

**European Union**

## The Next Period

- Going in contact with smaller cities at the Hamburg-region: empty shops are a problem of smaller cities and villages at rural areas!
