# Chapel Walk Concept Shop

Project report by SKINN, Sheffield, Jan 2013

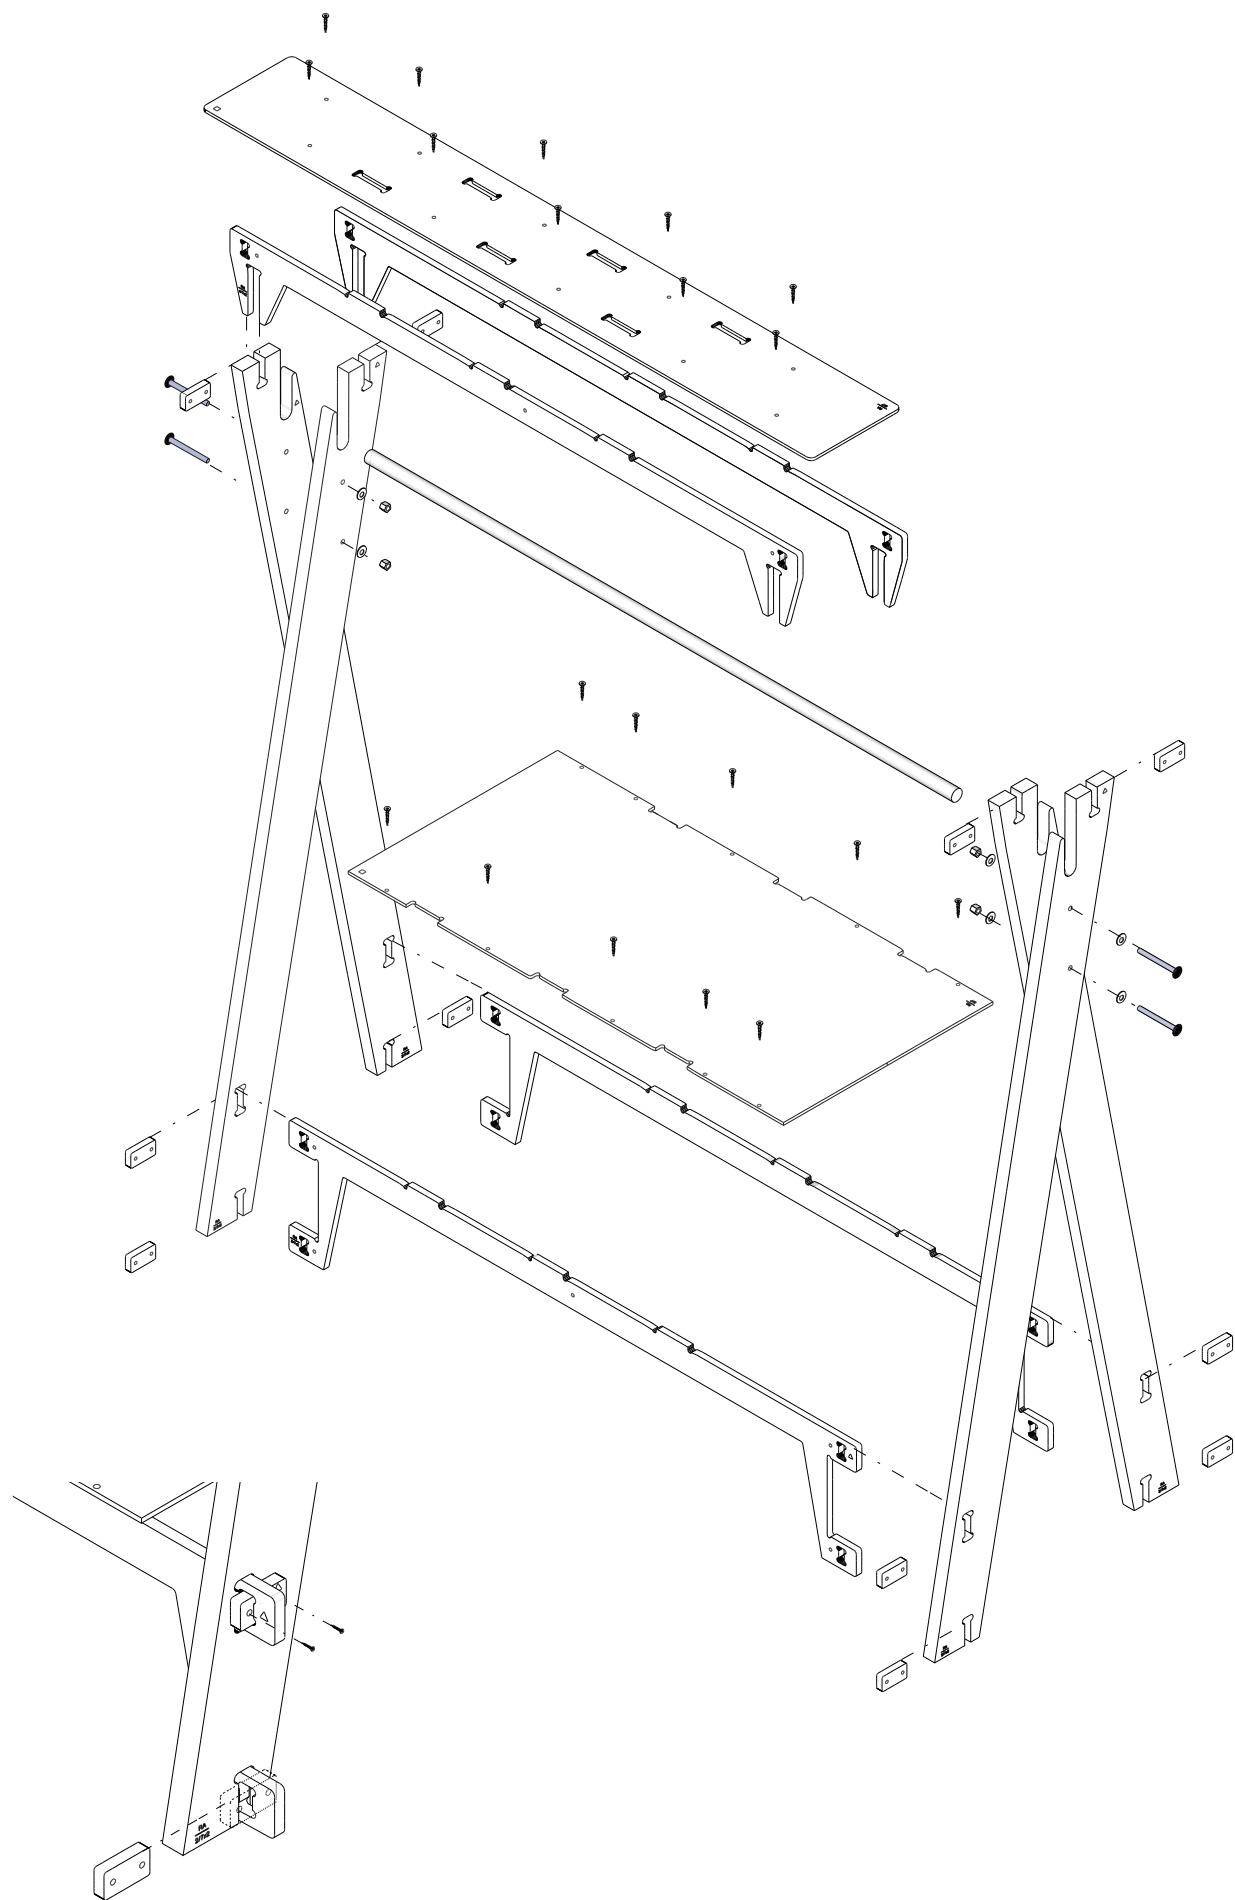

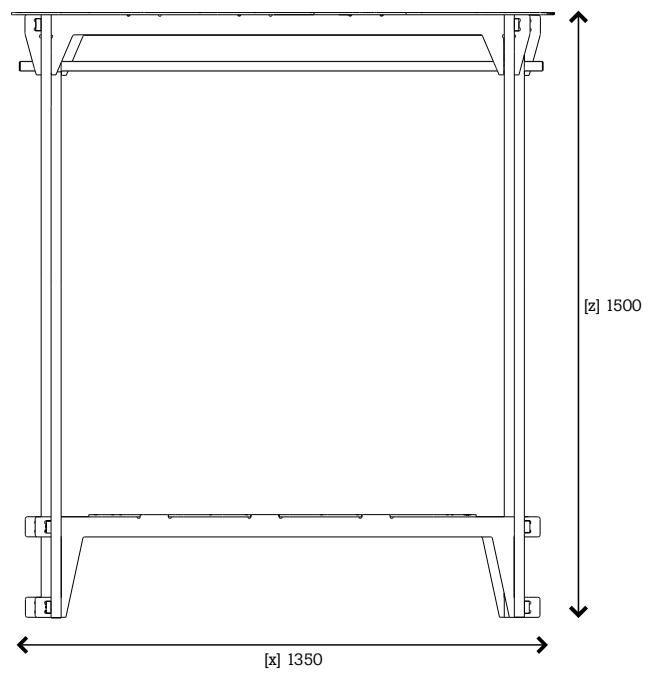

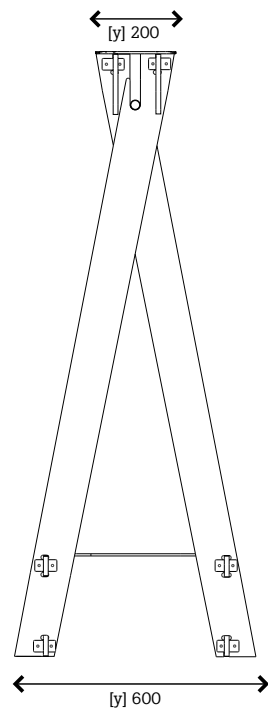

Chapel Walk Concept Shop -  
DRAFT

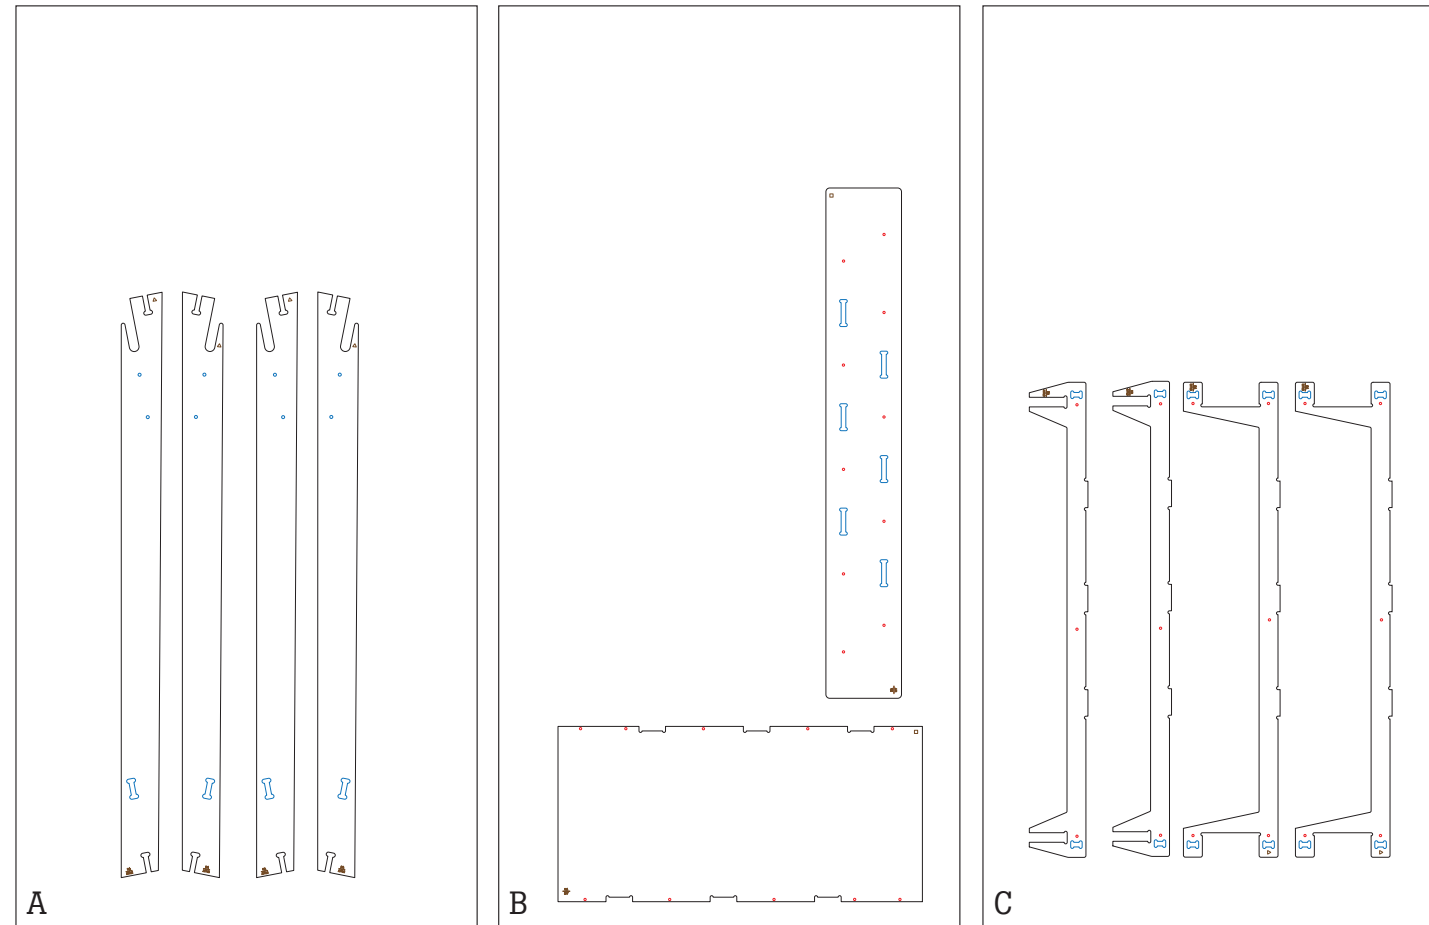

Chapel Walk Project, Dec 2012  
Product Manual

### Key

black - external cuts  
blue - internal cuts  
red - marks/deepenings for holes  
brown - engraved item numbers

### List of materials

A - 25mm ply  
B - 12mm ply  
C - 5.5mm ply  
24x (3.5x25mm) screws  
20x (4.0x12mm) screws  
4x (M6x80mm0 bolts  
4x (M6) nuts  
4x (M6) washers  
Varnish  
1x (25x1300mm) rail

### Fabrication suggestion

-Use of 25 mm thick ply for the beams is ideal, but you can also use double thickness of 12mm ply.

-Engraved item numbers mark each detail giving it separate number - can be ignored to save on cutting time.

### Drawing suggestions

-Separate colour for each type of cuts. (PDF or DWG format).

-Min space between objects 30 mm.

-Combination of other elements, to save on off-cuts.

-Have 20% more material for testing.

### Finishing

-Be aware that some thicker finish materials (especially paint) may make the joints fit tighter.

-Beeswax (Briwax) could be applied instead of varnish for a more natural/matt finish. See further instructions on the package.
