Vision of StratMoS

- Efficient, safe and sustainable transportation, connecting coastal areas and enhancing regional development in the North Sea Region, extending to the Barents region

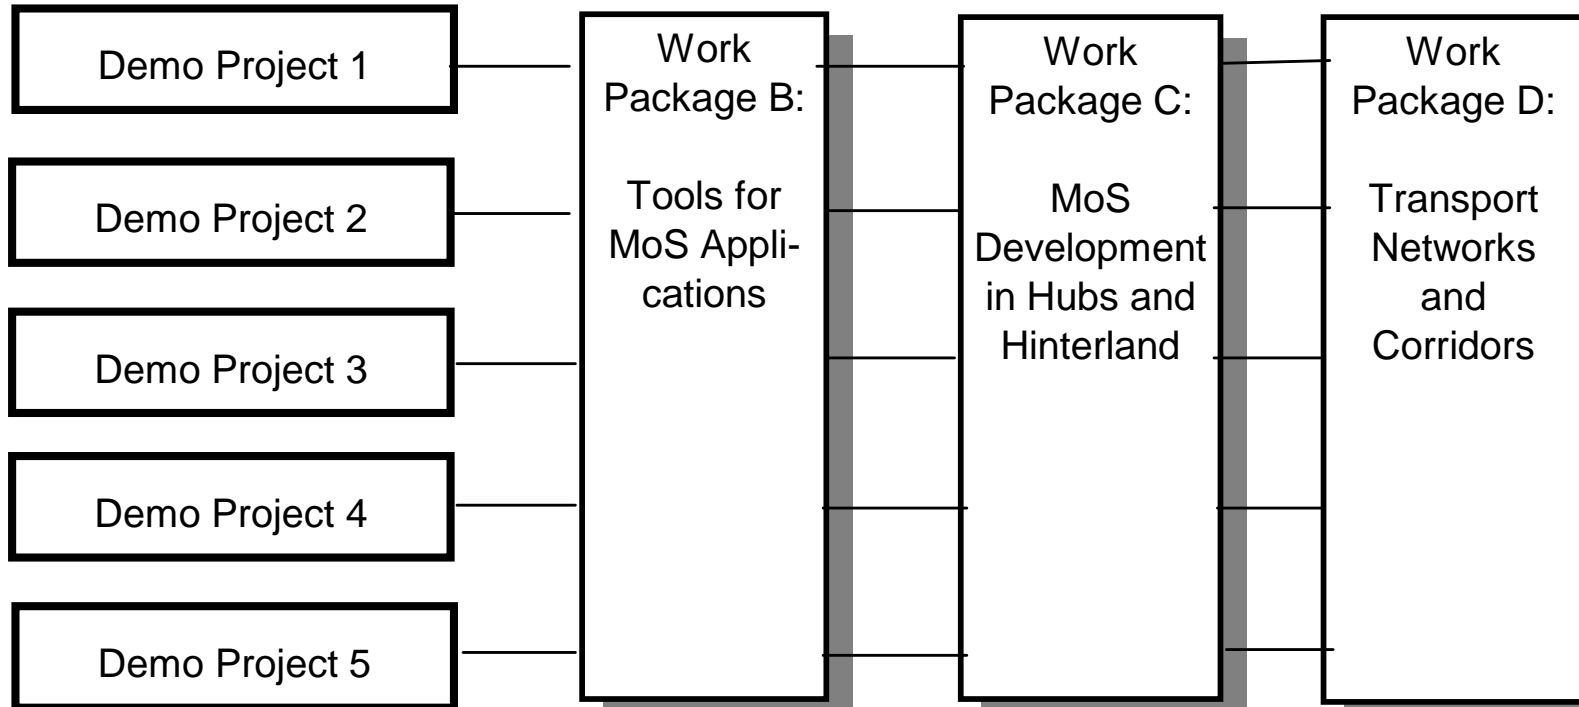

Aim

- Promote and facilitate
 - shift of cargo from road to sea based intermodal transport and
 - improve accessibility within the North Sea Region, extended to the Barents Region
 - by supporting the implementation of MoS and related transport networks
 - in integrated logistical chains.

Project Structure

Work Package A: Project Coordination and Synergies with Other Projects

Demo Projects

- DP1: Northern Maritime Corridor – Barents Sea Intermodal Service
- DP2: NORSHUKON (Norway-Shetland-UK and Continent RoPax MoS)
- DP3: Development of the Port into an Intermodal Hub
- DP4: Secured Trade Lanes in the North Continent – Russia Corridor
- DP5: Offshore Hubs and MoS Linkages

Why transnational partnership

- Potential for shifting cargo from road to sea through international sea services
- Short sea shipping and feeder services are mostly operating between countries
- The shipping and transport industry is an international industry
- **Transnational partnership is a must!**

Why within an Interreg programme?

- Previous good experience
- Sea transport and sea related services primarily regional/local level activities and decision making
- **Interregional cooperation is close to planning and implementation!**

How to develop idea into a project?

- Originated from the NMC project
- Expanded from sea based services to full intermodal transport chain and focus on logistic hubs
- The NMC project was a merging of five different short sea shipping initiatives
- **Expanding on previous project achievements and experiences!**

How to find project partners?

- Based on the NMC partnership
- Expanded partnership primarily through the wider network of individual partners
- **To a great extent the partnership is established through existing relations and networks!**
