

# Healthy and sustainable berry fruit – All the way to your breakfast table.

Climafruit is a project in which several partners from participating regions in the North Sea Region Programme come together to improve the berry fruit industry in the region. Climafruit is led by Århus University.

Climafruit is one of 63 projects in the North Sea Region Programme, and is as such partly EU funded. The North Sea Region Programme is based in Viborg and administer projects such as Climafruit all around the North Sea Region in the 7 participating countries of the Programme.

Visit the listed websites to learn about Climafruit, the North Sea Region Programme and how the EU works with local issues that have an impact on people in their daily life.
